

Protecting and Promoting Employee Health...from hire to retire

About WorkCare

WorkCare, Inc., is a U.S.-based, physician-directed occupational health services company with global outreach. We provide integrated employee health management solutions to companies of all sizes and types. Collectively, our clients employ more than 1 million people.

WorkCare's clinicians and allied subject matter experts collaborate with employers to support their workplace environment, health and safety (EH&S) programs while building trust with employees.

Our company was established in 1984 by Executive Chairman and Chief Medical Officer Peter P. Greaney, M.D., a board-certified occupational medicine physician. The leadership of our physician team continues to set us apart from our competitors.

Results

We apply best medical practices, advanced technology, proven strategies and innovative thinking to achieve optimal employee health and business outcomes.

We produce measurable results, including:

- Lower medical, insurance and legal liability costs
- Improved employee quality of life, productivity and retention
- Decreases in workers' compensation claim and OSHA-recordable rates
- Return on investment in sustainable EH&S programs across the enterprise
- Fewer disability determinations and prolonged work absence cases

Work Matters. Health Counts.

We believe that work is a therapeutic activity – both physically and mentally. WorkCare's entire team is dedicated to providing quality-driven services in the most caring, efficient and cost-effective manner possible.

"Getting to know of and use WorkCare was one of the best outcomes of my safety career."

WorkCare's inter-related business divisions provide customizable solutions across the workplace health care continuum.

ONSITE SERVICES & CLINICS

Becoming one with the workplace.

Onsite, mobile and virtual clinical staffing, medical exams, emergency response, injury management and health promotion programs.

MEDICAL EXAMS & TRAVEL

Managing surveillance programs.

Exam scheduling, secure medical record-keeping, regulatory compliance, drug-free workplace programs, travelers' health and access to a national network of 4,500 qualified clinics.

INCIDENT INTERVENTION

Right care. Right time. Right setting.

24/7 telehealth access to physicians and nurses who provide care guidance at injury or illness onset, monitor recovery status at work and confer with treating providers.

CONSULTING M.D.

Physician expertise sets us apart.

Board-certified occupational medicine physicians advise clients on issues including hazard exposures, challenging cases, human performance and strategic EH&S initiatives.

LEAVE & DISABILITY CLINICAL SUPPORT

Monitoring care and managing leave.

Leave of absence and accommodation program featuring an early intervention, telemedicine assessment and triage model unlike any other in the marketplace.
